

Году экологии посвящается

Угадай животное

The image shows a guessing game interface. On the left, there are five brown paw prints arranged in a vertical line. In the center, there are four pieces of trash: a lit cigarette, a crumpled piece of yellow paper, an apple core, and a crushed green and silver can. On the right, there are three sets of black tracks, each consisting of three lines radiating from a central point, arranged in a vertical line. The text 'Угадай животное' is written at the bottom of the interface.
